STR301 E3/L3

The aggressive, self-cleaning tread design provide excellent traction in tough, demanding applications.

- Wear & Cut resistant tread compound
- Self cleaning tread
- Superior traction
- Suitable for loaders and articulated dumpers
- Excellent traction & floatation
- Reduced vibration & increased stability

STR302 E3/L3

The aggressive, self-cleaning tread design provides excellent traction and floatation in articulated dump truck and loader applications.

- Wear & Cut resistant tread compound
- Self cleaning tread
- Low rolling resistance
- Long life
- Excellent traction & floatation
- Reduced vibration & increased stability

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER

STR303 E3

The aggressive, self-cleaning tread designs provides excellent traction in tough, demanding applications.

- Reduced wheel spin & improved traction
- Excellent resistance to damage
- Increased life
- Off Road tread design
- Improved operator comfort
- Self cleaning tread
- Low road noise and reduced vibration

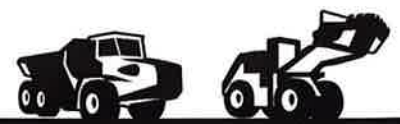

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER

					mm	42.5	859	2097

STR404 E4/L4

The aggressive, self-cleaning deep E4 tread design provides excellent traction in tough, demanding applications.

- Wear & Cut resistant tread compound
- Long life self cleaning deep tread
- Superior traction
- Suitable for loaders and articulated dumpers
- Excellent traction & floatation
- Reduced vibration & increased stability

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER
23.5R25	210A2/185B	**	T/L	19.50/2.5	in.	1.93	23.7	65.2
					mm	49	603	1655

STR501 L5

The aggressive, self-cleaning extra deep L5 tread design provides excellent traction in tough, demanding applications.

- Wear & Cut resistant tread compound
- Self cleaning tread
- Extra deep L5 traction patterns
- Long life
- Excellent traction & floatation
- Reduced vibration & increased stability

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER

						mm	92.5	1902	764

STR502 L5

This extra deep smooth L5S tread design provides maximum wear resistance in the toughest applications.

- Wear & Cut resistant tread compound
- Especially suitable for mining and waste handling operations
- High reliability
- Long life
- Excellent traction & floatation
- Reduced vibration & increased stability

STR401 E4

The aggressive, self-cleaning deep E4 tread designs provides excellent traction in tough rigid dump truck applications.

- Reduced wheel spin & excellent traction
- Excellent resistance to damage
- Increased life
- Off Road tread design
- Improved operator comfort
- Self cleaning tread
- Low road noise and reduced vibration

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER

					mm	68	666	2170

STR402 E4

This self-cleaning deep E4 tread designs provides excellent wear resistance in tough rigid dump truck applications.

- Reduced wheel spin & improved traction
- Excellent resistance to damage and cuts
- Increased life
- Off Road tread design
- Improved operator comfort
- Self cleaning tread
- Low road noise and reduced vibration

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER

STR403 E4

This self-cleaning deep E4 tread designs provides excellent wear resistance in tough rigid dump truck applications.

- Reduced wheel spin & improved traction
- Excellent resistance to damage and cuts
- Increased life
- Off Road tread design
- Improved operator comfort
- Self cleaning tread
- Low road noise and reduced vibration

					mm	59	662	2196

STRV01 Highway Service

The aggressive, self-cleaning tread design provides excellent traction in tough, demanding applications.

- Reduced wheel spin & improved traction
- Excellent resistance to damage
- Suitable for On & Off Road use
- Improved operator comfort
- Self cleaning tread
- Low road noise and reduced vibration

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER

					mm	31	516	1504

STR201 E2/G2/L2

The aggressive, self-cleaning tread design provides excellent traction in tough, demanding applications.

- Reduced wheel spin & improved traction
- Excellent resistance to damage
- Off Road directional tread design
- Improved operator comfort
- Self cleaning tread
- Low road noise and reduced vibration

SIZE	LOAD INDEX & SPEED SYMBOL	STAR RATING	TYPE	RECOM RIM INCH		PATTERN DEPTHS	OVERALL WIDTH	OVERALL DIAMETER
